Jacey Cooper Chief Deputy Director, Health Care Programs California Department of Health Care Services P.O. Box 997413, MS 0000 Sacramento, CA 95899-7413

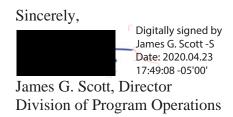

Dear Ms. Cooper:

Enclosed is an approved copy of California State Plan Amendment (SPA) 20-0017. This SPA was submitted to my office on March 13, 2020 to request a two-year extension of the previously-approved exception to renew the Recovery Audit Contractor (RAC) under Section 1902(a)(42)(B)(i) of the Social Security Act once the original exception expired on February 1, 2020. CMS is granting this two-year extension to the original exception request based on the documentation provided by the Department that it has active program integrity contractors performing work similar to a RAC.

This SPA was approved by CMS on April 21, 2020 and the effective date of this SPA is February 1, 2020 through February 1, 2022 as requested. Enclosed are the following approved SPA pages that should be incorporated into your approved state plan:

• Section 4.5, pages 36 and 36a – 36c

If you have any questions, please contact Cheryl Young at 415-744-3598 or via email at Cheryl. Young@cms.hhs.gov.

Proposed Section 4 – GENERAL PROGRAM ADMINISTRATION 4.5 Medicaid Recovery Audit Contractor (RAC) Program

The Medicaid agency has established and will maintain methods, criteria, and procedures that meet all requirements of 42 CFR 455.13 through 455.23 for prevention and control of program fraud and abuse.

Citation

Section 1902(a)(42)(B)(i) of the Social Security Act ☐ The State has established a program under which it will contract with one or more Recovery Audit Contractors (RACs) for the purpose of identifying underpayments and overpayments of Medicaid claims under the State plan and under any waiver of the State plan ☐ The State is seeking an exception extension to establishing such program for the following reasons:

- California contracted with a RAC from April 22, 2013 through January 31, 2017. The RAC recouped zero dollars during the term of the agreement, and failed to identify any overpayments or underpayments mostly due to California's robust internal program integrity efforts. The Centers for Medicare and Medicaid Services (CMS) granted California an exception from RAC requirements effective January 1, 2017, which expired February 1, 2020.
- California continues to have a robust program integrity process.
 For Fiscal Year (FY) 2018-19, California recovered \$279,033,294 and completed 8,016 audits and investigations, which triggered further review or an investigation, to determine if fraud, waste, abuse, excessive services or billing errors occurred. In addition, California's total return on investment for FY 2018-19 was \$528,599,897, which included recoveries, cost changes, cost savings, and cost avoidance.
- California has the following program integrity initiatives in place to combat fraud, waste, and abuse in the Medi-Cal program:
 - o Provider Education Letters
 - Provider Audits and Investigations
 - Audits For Recovery
 - o Preliminary Criminal Investigations
 - Enhanced Data Analytics
 - o Traditional Surveillance Utilization Review System
 - o Federal Universal Program Integrity Contractor
 - Random Claim Review, now known as, Rotating Provider Review
 - Sanctions and Utilization Controls
 - Pre-Check Reviews
 - o Federal Payment Error Rate Measurement

Proposed Section 4 – GENERAL PROGRAM ADMINISTRATION 4.5 Medicaid Recovery Audit Contractor (RAC) Program

Section 1902 (a)(42)(B)(ii)(I) of the Act	 The RAC is restricted to auditing Fee-For-Service (FFS) providers. 82 percent of Medi-Cal beneficiaries are enrolled in Managed Care, compared to 18 percent who receive their care through FFS. As California's internal integrity program is sufficient to cover the 18 percent of FFS, we do not anticipate that a RAC will be needed for recovery purposes. RAC recoveries in other states mostly result from audits of payments to inpatient hospitals. However, Medi-Cal inpatient claims would not be subject to RAC review because California utilizes the Diagnosis Related Group Inpatient payment methodology based on cost. In addition, California's Financial Audits Branch within our Audits and Investigations Division is solely dedicated to review inpatient claims in partnership with the Medical Review Branch and Clinical Assurance Division. Both these factors
	Review Branch and Clinical Assurance Division. Both these factors reduce the probability for a RAC to identify overpayments or underpayments for inpatient claims.
	CMS' recent Payment Error Rate Measurement Program has shown that California's Medicaid Program error rate has been far less than the national average.
	□The State/Medicaid agency will have contracts of the type(s) listed in section 1902(a)(42)(B)(ii)(I) of the Act. All contracts will meet the requirements of the statute. RACs are consistent with the statute.
	Place a check mark to provide assurance of the following:
	☐The State will make payments to the RAC(s) only from amounts recovered.
	☐The State will make payments to the RAC(s) on contingent basis for collecting overpayments
