

**DATE:** February 12, 2026

## **QIP POLICY LETTER 26-001**

**TO:** ALL DISTRICT AND MUNICIPAL PUBLIC HOSPITALS (DMPHS)

**SUBJECT:** QIP POLICY INFORMATION RELEVANT TO THE DMPH MEASURE  
COMMITMENT SURVEY AND DMPH COMMUNITY PARTNER  
APPLICATION FOR CALENDAR YEAR (CY) 2026

### **PURPOSE:**

This QIP Policy Letter (QPL) informs DMPHS of QIP policies that are relevant for the accurate completion of the DMPH Measure Commitment Survey for CY2026. It also contains information and a link to the CY2026 application template for DMPHS seeking DHCS approval to use community partners for the QIP program.

### **BACKGROUND:**

The QIP policy information relevant to the DMPH Measure Commitment Survey and Community Partner Application is being released for CY2026 to assess how these policies will impact the commitment to the number of measures and Community Partner(s).

Additionally, DMPHS must refer to the QIP CY2026 Reporting Manual, which was released on Thursday, January 1, 2026 and includes the full QIP Program Policies and General Guidelines where requirements are stated **prior** to committing to the number of measures and Community Partner(s). All information contained herein is contingent upon the Centers for Medicare and Medicaid Services (CMS) approval of the QIP CY2026 DMPH Preprint.

### **POLICIES:**

#### **1. *DMPH Number of Measures and Commitment Survey***

For CY2026, DHCS has modified the two-tiered groupings of DMPHS based on the sum of DMPH Medi-Cal Managed Care Revenue from the most current audited year (CY2024). Each DMPH must complete a survey committing to the number of measures within its tier grouping that it will report on, no later than 60 calendar days after the release of the QIP CY2026 Reporting Manual.

DMPHs must submit their Measure Commitment Survey via email to their respective QIP liaison by **Monday, March 16, 2026**. DMPHs must ensure that the person who signs the Measure Commitment Survey is the Chief Executive Officer (CEO), the Chief Financial Officer (CFO), or an authorized official who has financial responsibility for the QIP entity.

For DMPHs wanting to see their specific tier, please see *Attachment 1 - Specific DMPH QIP Tiers*. Each tier contains a range of measures – a required minimum and a maximum possible that a DMPH could commit to report. DMPHs in Tier 2 with rural hospital designation, as defined by the CA Health & Safety Code section 124840, have the option to move to Tier 1. QIP Tiers and Measure Ranges are in Table 1.

NOTES: A DMPH **must** report on the number of measures it commits to in order to receive **ANY** payment for a CY. If a DMPH does not report on the number of measures it commits to via the survey, it will not receive **ANY** payment for the CY.

For CY2026, a DMPH **must only** report on the number of measures it commits to (do NOT overreport) **AND** the following three (3) informational managed care plan (MCP) produced measures:

- Q-COMS: Number and Percentage of Eligible Members Receiving Community Supports, and Number of Unique Community Supports Received by Members
- Q-ECM: Number of Members Enrolled in ECM
- Q-FUAH: Percentage of Acute Hospital Stay Discharges Which Had Follow-Up Ambulatory Visits Within 7 Days Post Hospital Discharge

*For example:*

A DMPH in Tier 1 that commits to five (5) measures **must** report a total of eight (8) measures.

Table 1: DMPH QIP Tiers and Measure Ranges

DMPH QIP Tier	Measure Range		Sum of Net Medi-Cal Managed Care Revenue
	Minimum	Maximum	
1	1	15**	Less than \$30 million
2	7	20	\$30 million and above

**\*\*For CY2026, DMPHs in Tier 1 may add up to three (3) measures for a maximum commitment of fifteen (15) measures **only if** they achieved a Quality Score of 100% for their performance in the previous two (2) CYs (i.e., CYs 2023 and 2024) for which completed and audited data are available. This maximum commitment of fifteen (15) measures policy **only** applies to DMPHs in Tier 1 that previously committed to and reported on a maximum total of twelve (12) measures in CYs 2023 and 2024.**

When completing the Measure Commitment Survey, DMPHs should consider that the number of measures they report partially determines their allocation:

- 40 percent by the number of measures the DMPH commits to report for CY2026, proportionate to other DMPHs.
- 60 percent of the most current annual Medi-Cal Managed Care revenue proportionate to other participating DMPHs.

If a DMPH is allocated the minimum amount, this will proportionally adjust all other DMPHs' allocation.

For CY2026, the minimum allocation for DMPHs in Tier 1 reporting one (1) measure will be set at \$500,000.

For CY2026 and beyond, the allocation threshold for DMPHs in Tier 1 reporting two (2) measures will remain \$750,000.

**Before** committing to the specific required number of measures, the DMPH must consider a multitude of factors including, but not limited to, which QIP Tier it is in, the QIP allocation methodology, the clinical services it offers, the participation of community partners (see Section 2 below), and the likelihood of data measure's denominator being above 30 patients for the baseline period as well as the performance period. Moreover, the DMPH should consider these additional QIP program requirements **prior** to committing to the number of measures for a CY:

a. QIP Priority Measure sub-set and 50 Percent DMPH Requirement:

1) DHCS has designated 20 measures as the Priority Measure sub-set.

For DMPHs, at least **50 percent** of reported measures must be from the Priority Measure sub-set unless:

- The DMPH does not offer the clinical service line covered by the measure(s), with the exception of FUA and FUM if a hospital provides emergency department services but no outpatient services,
- The DMPH does not have enough Priority Measures with a denominator of at least 30 for the CY, or
- The DMPH is reporting only on one (1) measure wherein the DMPH can report on either a Priority or Elective Measure.

If a DMPH demonstrates to DHCS that either of the first two aforementioned criteria apply for a given Priority Measure, it must pick a different Priority Measure on which to report on. If all Priority Measures have been exhausted due to either criterion, then the DMPH **must** demonstrate this within the QIP Reporting Application. At that point, the DMPH may select from the list of Elective Measures from CY2026 to meet its minimum measure

commitment, and it is no longer held to the 50 percent Priority Measure requirement.

b. One (1) Medi-Cal Managed Care (MCMC) Life for each measure:

- 1) Each reported measure must include at least one person enrolled in MCMC in the denominator during the reporting CY in order for payment to be made.
- 2) For sub-rated measures, at least one (1) sub-rate must include data from at least one (1) person enrolled in MCMC. An entity will earn an AV of zero (0) and will not receive payment for a reported measure in which data does not include at least one (1) MCMC life. However, the measure may still be used to fulfill the required number of measures for an entity's QIP reporting.

NOTE: Any MCMC life meets this reporting requirement; the MCMC life does not necessarily have to be assigned to the DMPH unless it is required by the measure-specific criteria.

c. QIP Target Populations

The QIP Target Population depends upon the specific QIP measure and can be identified in the QIP CY2026 Reporting Manual.

d. For CY2026, DMPHs **must** report 30% of their total measures from their CY2025 QIP report, **rounded to the nearest integer**. DMPHs that have attested to one (1) measure or two (2) measures in CY2026 will be exempt from this requirement. Below is a list of additional exemptions to the rule. Any other exemptions are determined solely by DHCS on a case-by-case basis and require a written request to DHCS for consideration.

- The entity no longer offers the clinical service(s) line(s) required to report on the measure (e.g., the entity has closed its maternity unit).
- The entity no longer has a community partnership in place to be able to use the community partner's data to report on the measure(s) (e.g., community partner agreement has been discontinued in CY2026).
- The entity's community partner no longer offers the clinical service(s) required to report on the measure(s).
- The entity's community partner can no longer and/or will no longer provide the necessary data to be able to report on the measure(s).
- The entity or the entity's community partner does not have a denominator of 30 or greater required to be able to report on the measure(s).

## 2. ***DMPH Community Partner Application Materials***

The CY2026 DMPH Preprint that is contingent upon CMS approval includes a provision allowing DMPHs to use community partner data in QIP data reporting, if approved to do so by DHCS. If approved, DMPHs must apply a consistent, identical method to include all eligible community partner patient data for each measure

selected within their application(s). For each approved measure, the DMPH must include all patients from the community partner who meet the measure denominator criteria. Measures may be selected from the list outlined in Table 2: QIP Measures Allowable for Community Partner Data within the QIP CY2026 Reporting Manual. As an update, please note that the following FUX measures have been removed from the list due to expanded target population:

- Q-FUA: \*Follow-Up After ED Visit for Alcohol and Other Drug Abuse or Dependence (FUA)
- Q-FUAH: Percentage of Acute Hospital Stay Discharges Which Had Follow-Up Ambulatory Visits Within 7 Days Post Hospital Discharge
- Q-FUI: Follow-Up After High-Intensity Care for Substance Use Disorder (FUI)
- Q-FUM: \*Follow-Up After Emergency Department Visit for Mental Illness (FUM)

Note: \* indicates a Priority Measure

DMPHs seeking approval to use a community partner's data in QIP will have the opportunity to apply for approval 60 calendar days after the release of the QIP CY2026 Reporting Manual. DMPHs must submit the completed application and supplemental documentation to their QIP liaison by **Monday, March 16, 2026**. DMPHs must ensure that the person who signs the Community Partner Application form is the Chief Executive Officer (CEO), the Chief Financial Officer (CFO), or an authorized official who has financial responsibility for the QIP entity.

Applications will be approved or denied no later than 45 calendar days upon receipt of application and on a case-by-case basis for DMPH-reported changes that affect the information within its application on which the approval is based, in accordance with criteria that the partnership must meet in order to be approved for this allowance. DHCS' approval will be valid for CY2026.

Furthermore, DMPHs seeking to use community partner data must apply to DHCS using the CY2026 application template available on [eQIP](#) and provide all supplemental documentation outlined in *Attachment 2 - DMPH Community Partner Application Materials*. If a DMPH is seeking approval to use multiple community partners, one (1) application **per** community partner is required. In addition, a minimum of one-year written agreement such as a Memorandum of Understanding (MOU) or Contract for CY2026 for **each** community partner is required.

DMPHs with Community Partners are **required** to re-report baseline data **if** they choose to continue reporting the same measure(s) in the current CY **and** the following scenario(s) applies (apply):

- a. *Change in Community Partnership:*

In the prior CY, the DMPH had a community partnership with *Clinic A* and used

*Clinic A's* data to report on an approved community partner measure. In the current CY, the DMPH discontinued the partnership with *Clinic A* and established a new partnership with *Clinic B*. Therefore, *Clinic B's* data shall be used to report the same measure.

b. *Change in Data Source:*

In the prior CY, the DMPH used both its own entity's data and its Community Partner's data to report on an approved community partner measure. However, the DMPH and its Community Partner discontinued their community partnership in the current CY. The DMPH chooses to only use its own entity's data to report on the same measure in the current CY.

QIP entities should contact their QIP liaison or email the QIP Mailbox at [QIP@dhcs.ca.gov](mailto:QIP@dhcs.ca.gov) if there are any questions concerning this QPL.

Sincerely,

★★ **Note:** For CY2026, DMPHs in Tier 1 may add up to three (3) measures for a maximum commitment of fifteen (15) measures **only if** they achieved a Quality Score of 100% for their performance in the previous two (2) CYs (i.e., CYs 2023 and 2024) for which completed and audited data are available. This maximum commitment of fifteen (15) measures policy **only** applies to DMPHs in Tier 1 that previously committed to and reported on a maximum total of twelve (12) measures in CYs 2023 and 2024.

**Attachment 2 – DMPH Community Partner Application Materials**

The application materials are located on [eQIP](#). The below table outlines the items that **must** be submitted as part of the DMPH Community Partner Application, which are due to the QIP liaison by **Monday, March 16, 2026**.

	Description	Source Document
1	Completed Application	One (1) <b>per</b> community partner
2	Written Contract Agreement <sup>1</sup> that includes a Data Sharing/Data Use Agreement	One (1) <b>per</b> community partner
3	Section 3 Responses Attachment that includes a Data Sharing Schedule	One (1) <b>per</b> selected measure <b>per</b> community partner

---

<sup>1</sup> Written contract agreements submitted to DHCS in draft form (i.e., not yet finalized/executed) can only receive conditional approval, with **final approval** contingent upon the written agreement being finalized and sent to the QIP liaison no later than 45 calendar days upon receipt of application.
