### **How This Agenda Item Relates to Council Mission**

To review, evaluate and advocate for an accessible and effective behavioral health system.

This agenda item provides the opportunity for council members to discuss the definition and scope of performance outcomes measures in order to better evaluate the behavioral health system through the annual Data Notebook project.

## **Background/Description:**

Each year the Council releases a Data Notebook to the local mental/behavioral health boards and commissions to complete with their perspectives on focused areas of the system. The Data Notebook has two parts. Part One contains standard questions that are included each year to obtain county-specific information on vulnerable populations for which there is no publicly available data. Part Two contains questions focused on different aspects of the public behavioral health system. The Data Notebook Overview Report provides background information on that year's topic, an in-depth analysis of the data collected from the survey, and a list of recommendations based on the analysis.

The committee members will discuss and develop recommendations for the 2022 Data Notebook on the Impact of the Covid-19 Public Health Emergency on Behavioral Health Needs and Provision of Services in California.
