Background/Description:

Senate Bill 43 (SB 43), which expands the definition of “gravely disabled” in state Welfare and Institution Code passed in October 2023. During this agenda item Daphne Shaw, PRC Chairperson, and LPPC member will provide an update based on Deb’s presentation.

Karen Baylor will also share insight on the impacts across the systems (hospital, outpatient, counties, providers, and legal), which she heard at the Behavioral Health Symposium in December 2023.

Following the updates, all members will have the opportunity to discuss the changes and decide if there is any action the committee would like to take.

Agenda Item: Review/Approve CBHPC Policy Platform

Enclosures: [CBHPC Policy Platform](#)

How This Agenda Item Relates to Council Mission

To review, evaluate and advocate for an accessible and effective behavioral health system.

The CBHPC is mandated to advocate for an accountable system of responsive services that are strength-based, recovery-oriented, culturally, and linguistically responsive, and cost-effective. To achieve these ends in an effective manner, the Council utilizes a Legislative Platform that clearly directs the policy consideration of legislation during the legislative session. Additionally, the Council's platform educates the public, the behavioral health constituency, and legislators on the Council's perspective on various issues.

Background/Description:

The platform was developed for staff to utilize to identify bills to bring to the committee for discussion and potential positions. The platform also gives the public an overview of the Council's views and areas of priority. The Legislation Committee spent time at the 2019 meetings revising the Council's long-standing Policy Platform and adopted the current version in January 2020. During the process, members decided that the Policy Platform should be organized in a format that clearly defines the Council's values in key areas. Since the Council had just reorganized with new committees the document was developed around the new committee's areas of focus.

At the January 2023 meeting members adopted revisions to the Workforce and Employment Committee (WEC) and the Systems and Medicaid Committee (SMC) sections to reflect the current focus of the committees. During this agenda item members will have an opportunity to review the Policy Platform and discuss any revisions required.

This presentation is intended to inform the committee on the Governor's Proposed 2024-25 State Budget and assist the members with identifying areas of focus for the coming year. Additionally, this presentation will assist the committee in identifying areas the Council can work with CBHDA to advocate for Californians with serious mental illness and substance use disorders and promote a system of services that are accountable, accessible, and responsive.

Background/Description:

Gail Gronert, CBHDA, Director of Strategic Initiatives, will discuss their priorities for 2024 and provide an overview of the Governor's Proposed 2024-25 State Budget. Gail is responsible for helping lead CBHDA's budget and advocacy efforts and provides strategic guidance to advance CBHDA's mission. Agenda Item: Discussion of Proposition 1

Enclosure: [LAO Analysis of Proposition 1](#)

How This Agenda Item Relates to Council Mission

To review, evaluate, and advocate for an accessible and effective behavioral health system.

If passed, Proposition 1 will redesign California's behavioral health system.

Background/Description:

On March 19, 2023, Governor Newsom announced that he was calling on lawmakers to place a measure on the 2024 ballot to modernize the state's behavioral health system. This initiative includes Senate Bill 326 (SB 326) and Assembly Bill 531 (AB 531) now being referred to as Proposition 1.

Some proposed changes included in the initiative are:

- The expansion of the use of Mental Health Services Act to include Substance Use Disorder (SUD) treatment.
- Updates to the categorial funding buckets, requiring 30 percent of MHSA funds be used on housing services.
- Updates to the county process and spending.

The Council has taken an active role in informing the public about the initiative, as well as informing the administration and legislature on the input of the public through public forums, summaries of the forums, requested amendments, and the Council's letter of Concern.

This agenda item provides committee members with an opportunity to discuss Proposition 1 before the presentations the full Council will hear during General Session.
