Purpose and Timeline

- » Transition of the CHDP Program aligns with the Department's goal under California Advancing and Innovating Medi-Cal (CalAIM) to reduce administrative complexities.
- » CalAIM will enhance coordination of care and increase standardization of care across Medi-Cal by consolidating care responsibilities for children/youth under the care of Medi-Cal Managed Care Plans (MCPs).
- » By 2023, the majority of children and youth under age 21 will be enrolled in a Medi-Cal MCP, through, which they will receive all medically necessary services.
- » DHCS will sunset and fully transition components of the CHDP Program that are already existing in other Medi-Cal delivery systems.
