22. REMARKS

reimbursement rate prospectively over the intervening year(s) between audits. The amount a cost category is adjusted will be determined by an error factor that reflects a ratio of the difference between the reported cost and the audited expenditures for each cost category, consistent with the methodology specified in this Supplement.

- D. In the event that the FS/NF-B's labor costs are incorrectly reported on facility cost reports or supplemental schedules, the Department will prospectively adjust the facility's reimbursement rate, in the same manner as described in Section IV.C.2. of this Supplement. Those adjustments received after computation of the annual labor study will be excluded from that study.
- E. Compliance by each FS/NF-B with state laws and regulations regarding staffing levels will be documented annually, either through supplemental reports or through the annual licensing inspection process specified in Health and Safety Code section 1422.
- F. Overpayments to any FS/NF-B will be recovered in a manner consistent with applicable recovery procedures and requirements of state and federal laws and regulations. Overpayment recovery regulations are described in the California Code of Regulations, title 22, section 51047. Overpayments referred to in this Section do not include those situations described above in Paragraphs IV.C.2. or IV.D.
- G. Providers have the right to appeal audit or examination findings that result in an adjustment to Medi-Cal reimbursement rates. Specific appeal procedures are contained in Welfare and Institutions Code, section 14171, and in Division 3, Subdivision 1, Chapter 3, Article 1.5 (Provider Audit Appeals) of the California Code of Regulations, title 22, sections 51016 through 51048.
- H. For FS/NF-Bs that obtain an audit appeal decision that results in revision of the facility's allowable costs used to calculate a facility's reimbursement rate, the Department will make a retroactive adjustment in the facility-specific reimbursement rate.
- I. Beginning January 1, 2022, the Department's financial audits, including any relevant supplemental schedules, of FS/NF-Bs and subacute care units of FS/NF-Bs pursuant to this Section, may include audits of facility costs and revenues associated with the COVID-19 Public Health Emergency declared pursuant to Section 247d of Title 42 of the United States Code on January 30, 2020, and any renewal of that declaration. The Department will recoup amounts of Medi-Cal payments associated with the COVID-19 10% per diem rate increase authorized in Section 7.4 of the State Plan that the Department finds were not adequately used by the facility for allowable costs. Allowable costs include those for patient

care: additional labor costs attributable to the COVID-19 Public Health Emergency including, but not limited to, increased wages or benefits, shift incentive payments, staff retention bonuses, pay differential for workers employed by more than one facility, and overtime payments to nonmanagerial workers; and other appropriate costs that support the delivery of patient care. Other appropriate costs that support delivery of patient care include, but is not limited to, those for personal protective equipment, COVID-19 testing, infection control measures and equipment, and staff training.

V. Methods and Standards for Establishing FS/NF-B Reimbursement Rates

- A. Effective August 1, 2005, a FS/NF-B's actual reimbursement rate (per diem payment) is the amount the Department will reimburse to a FS/NF-B for services rendered to an eligible resident for one resident day. The per diem payment is calculated prospectively on a facility-specific basis using facility-specific data from the FS/NF-B's most recent cost report period (audited or adjusted), supplemental schedules, and other data determined necessary by the Department.
