* This column represents the monthly countable income limits before the \$20 any income deduction is applied.

**This column represents the monthly countable income limits after the \$20 any income deduction is applied.

Note: Typically the State would include countable income before the \$20 deduction. This chart reports income both with and without the \$20 deduction because the Health Care Financing Administration provides information to the public with income limits for QMB, SLMB, QI-1, and QI-2 which includes the \$20 any income deduction.
