Letter No. 84-18

## MEDI-CAL QUALITY CONTROL SAMPLING PLAN

Effective with the February 1984 month of review, the Department of Health Services will sample and review Medi-Cal cases in all counties monthly as provided for under existing statutory authority. Samples will be drawn to achieve a minimum number of completed Medi-Cal quality control case reviews in each county. This change in procedure follows a recent DHS decision to gather representative information on all counties. Attached you will find a list of counties and the minimum number of cases established for completion during an annual review cycle.

If you have any questions regarding this issue, please contact Albert Cooper at (916) 322-8444.
