DEPARTMENT OF HEALTH SERVICES 714/744 P STREET SACRAMENT816 25814 324-4950

September 21, 1988

TO: ALL COUNTY WELFARE DIRECTORS ALL COUNTY ADMINISTRATIVE OFFICERS

LETTER NO. 88-71

SUBJECT: OTHER HEALTH COVERAGE VS. MEDI-CAL CAPITATED HEALTH CARE PLANS

The purpose of this letter is to clarify the difference between Other Health Coverage (OHC) and Medi-Cal Prepaid Health Care Plans (HCP) for the purpose of OHC coding.

Background

The Department of Health Services (DHS) has recently implemented the cost avoidance method of handling Medi-Cal fee-for-service (FFS) provider claims when a potential third party liability exists. This means that Medi-Cal beneficiaries must utilize any <u>private</u> health insurance before any Medi-Cal payment will be made.

DHS also administers a program as an alternative to the traditional FFS system whereby Medi-Cal eligibles obtain their health care from an HCP. When covered by a Medi-Cal HCP arrangement, a Medi-Cal recipient may receive health care services only through the HCP. Individuals who choose to enroll in HCPs as a means of receiving Medi-Cal covered benefits may also have private health insurance.

<u>Problem</u>

It has come to our attention that Medi-Cal HCP coverage is being mistaken for OHC and coded on MEDS and Medi-Cal for cost avoidance. This is inappropriate coding.

When a Medi-Cal beneficiary has <u>private</u> OHC as a supplement to Medi-Cal, the beneficiary's OHC code must correspond accurately to the source of <u>private</u> coverage reported by the beneficiary. Please refer to All County Welfare Letter 87-44 which lists all OHC codes.

When a Medi-Cal beneficiary is covered by a <u>Medi-Cal</u> HCP, this is <u>not to be</u> <u>considered OHC</u>; however, some Medi-Cal beneficiaries who are covered by a Medi-Cal HCP <u>may also have private</u> OHC. In these cases, MEDS should be coded appropriately to reflect the <u>private</u> OHC.

Accurate OHC coding is necessary even if the beneficiary is covered by a <u>Medi-Cal</u> HCP. This is because Medi-Cal HCPs are also expected to recover from private health insurance the costs of health care provided to beneficiaries. Because of this policy, the State reduces its payments to the HCPs by the amount it expects the HCPs to recover from private health insurers.

<u>Action</u>

Please communicate to eligibility staff the importance of accurate coding of OHC information as well as the distinction between <u>private</u> OHC and <u>Medi-Cal</u> HCP coverage. When Medi-Cal HCP beneficiaries have <u>private</u> OHC, it is distinct from, and unrelated to, their Medi-Cal HCP coverage. Counties should review ACWDL# 87-44 for instructions on how to correct or remove OHC codes and review their cases to assure they have not inappropriately coded HCP as cost avoidance OHC codes. To assist you, a listing of the State contracted capitated HCPs and consumer services phone numbers is enclosed. The codes in column 2 of the listing, when appearing on MEDS as "HCP NO", indicate Medi-Cal HCP coverage.

If you have any questions regarding this letter, please contact Emily Blake-Kessel, of the Department's Capitated Health Systems Section, at (916) 324-4406.

Sincerely,

Original signed by
