PART II: RISK ANALYSIS

Description of Anticipated Contingencies (500 - 1000 word limit)
<p>To achieve the HHIP goals and broader MCP goals of preventing and ending homelessness in Sutter County, Anthem anticipates the following challenges:</p> <ul style="list-style-type: none"> • Certain measures, specifically measures related to data sharing, will take extensive discussions, significant funding, and a long timeframe to accomplish. Most likely not within the HHIP timeframes. There are some data sharing strategies that can most likely be accomplished but the long-term vision will take resources and time. • Like many CoC leads, the Sutter Yuba Homeless Consortium (SYHC) is challenged by staff capacity/bandwidth to take on new activities that fall outside of required federal and state requirements. Engagement with MCP’s while extremely important poses a challenge for CoC’s to take on in the near-term and be sustained over the long-term. Many of the HHIP metrics related to data sharing/Homeless Management Information System (HMIS), Coordinated Entry, and equity strategies will require significant bandwidth from SYHC to accomplish. • Currently there are limited street medicine programs operating in Sutter County. It may also take significant time to execute a contract or MOU with a street medicine provider within the time frame of the first measurement period so as Anthem is able to report on members who received services. • Anthem is challenged by internal bandwidth to meet the expectations of HHIP and truly engage with the homeless system of care. Anthem views HHIP as a significant opportunity to build partnerships to address homelessness among members, but will need to enhance internal housing/homelessness infrastructure to meet the opportunity. • Majority of HHIP funds do not come until the end of the program after all metrics reported, making it challenging to really use the HHIP funds to impact measures. The investments outlined in the Investment Plan are contingent on meeting metrics which require collaboration with external housing and homeless system partners.

- Anthem will not be the Medi-Cal MCP starting January 2024 given model change. This will most likely impact the development of a long-term partnership beyond HHIP timeframes and hinder sustainability of HHIP investments.
- Like the rest of the state, Sutter County does not have enough housing that is affordable making it challenging to achieve the measure related to housing placements and retention.

While the above outlines specific challenges, the following identifies steps Anthem intends to take with the Investment Plan and HHIP activities to address those challenges and which aspects above might be affected by those challenges:

- Make investments in SYHC to support enhanced CoC infrastructure to engage with Anthem, meet HHIP metrics, and align with community strategies. Develop HHIP project plan with CHSP to ensure agreed upon activities. However, increasing staff bandwidth and understanding of MCP and efforts (ie CalAIM) may take time which is limited given HHIP measurement periods.
- Make investments in street outreach and street medicine capacity building and work with provider on sustainability plan from the beginning. Developing a new MOU/contract with a new provider may not happen by the first measurement period.
- Continue to engage with the CoC and partners on housing investments that can address the housing supply and help support members with getting housed and remaining housed.
- Make investments in Anthem staff capacity to engage with community partners to ensure HHIP metrics are met to be able to receive incentive funds to reinvest in community gaps and needs.
- Be honest up front with SYHC and CoC partners on Medi-Cal model change dynamics to develop understanding among homeless system partners that Anthem's time in the county is limited.
- Anthem intends to use resources targeted to people experiencing homelessness under CalAIM, specifically Enhanced Care Management (ECM) and Community Supports housing services, to align with and leverage new community housing investments. While Anthem is limited in using funds to address actual housing resources, we intend to work with the community to determine ways to partner on the use of services in CalAIM to create more housing with supportive services.
- Engage MCP who will be taking over in 2024 early in the process and begin coordinating on HHIP activities and investments. Especially for sustainability with HHIP investments.

Re: Housing and Homelessness Incentive Program (HHIP) Investment Plan Letter of Support

The Sutter Yuba Homeless Consortium, Continuum of Care CA-524, is supportive of the California Department of Health Care Services (DHCS) Housing and Homelessness Incentive Program Investment Plan(s) (IP) being submitted by Anthem Blue Cross and California Health and Wellness in Yuba and Sutter counties. The CoC has had the opportunity to engage and collaborate with Managed Care Plans (MCP), provide input on the IP, and were able to review the IP prior to submission.

The CoC understands that the IP reflects a non-binding general direction for investments the MCPs are willing to initially make to meet DHCS' HHIP program metrics independent of how the MCPs plan to invest HHIP incentive funds once earned. The CoC also understands that the MCPs' HHIP investments are contingent on the MCPs meeting HHIP measures over the two-year HHIP program. To this end the CoC is committed to collaborating with the MCPs as they engage locally to meet HHIP program metrics.

If you have any questions, please feel free to reach out directly.

Thank you,
