STATE PLAN AMENDMENT 26-0020: INPATIENT HOSPITAL ALL PATIENT REFINED-DIAGNOSIS RELATED GROUP (APR-DRG) UPDATES FOR STATE FISCAL YEAR (SFY) 2026-27

Dear Ms. Miller:

The Department of Health Care Services (DHCS) is submitting State Plan Amendment (SPA) 26-0020 for your review and approval. This SPA proposes to make changes to California's Medicaid State Plan under Title XIX of the Social Security Act as it proposes to update Attachment 4.19-A and Appendix 6 to Attachment 4.19-A. DHCS seeks an effective date of July 1, 2026, for this SPA.

SPA 26-0020 updates California's Medicaid State Plan to revise the APR-DRG inpatient hospital reimbursement methodology for SFY 2026–27, ensuring Medi-Cal payments align with current clinical and cost data and meet federal Title XIX requirements.

On June 30, 2026, DHCS released a public notice online. At the time of SPA submission, no comments were received. In addition, DHCS has determined that a Tribal notice is not necessary for this proposal.

The documents included in the submission for review and approval are:

- CMS 179 Form
- Attachment 4.19-A, pages 17.42 and 17.49 (Redline and Clean)
- Appendix 6 to Attachment 4.19-A, pages 1, 2, 3, and 3a (Redline and Clean)

- Public Notice
- Responses to Inpatient Standard Funding Questions
- Inpatient Hospital UPL Guidance

If you have any questions or need additional information, please contact Katie Brooks, Division Chief, Safety Net Financing Division at 916-345-7937 or by email at Katie.Brooks@dhcs.ca.gov.

Sincerely,

C. APR-DRG Reimbursement

For admissions dated July 1, 2013, and after for private hospitals and for admissions dated January 1, 2014, and after for NDPHs, reimbursement to DRG Hospitals for services provided to Medi-Cal beneficiaries are based on APR-DRG. Effective July 1, 2015, APR-DRG Payment is determined by multiplying a specific APR-DRG HSRV by a DRG Hospital's specific APR-DRG Base Price with the application of adjustors and add-on payments, as applicable. Provided all pre-payment review requirements have been approved by DHCS, APR-DRG Payment is for each admit through discharge claim, unless otherwise specified in this segment of Attachment 4.19-A.

1. APR-DRG HSRV

The assigned APR-DRG code is determined from the information contained on a DRG Hospital's submitted UB-04 or 837I acute inpatient claim. The grouping algorithm utilizes the diagnoses codes, procedure codes, procedure dates, admit date, discharge date, patient birthdate, patient age, patient gender, and discharge status present on the submitted claim to group the claim to one of 335 specific APR-DRG groups. Within each specific group of 335, there are four severities of illness and risk of mortality sub-classes: minor (1), moderate (2), major (3), and extreme (4). This equates to a total of 1340 different APR-DRG (with two additional error code possibilities). Each discharge claim is assigned only one APR-DRG code. For each of the 1340 APR-DRG codes there is a specific APR-DRG HSRV assigned to it by the APR-DRG grouping algorithm. The APR-DRG HSRVs are

the remote rural base price. The labor share percentage for a SFY shall be the same percentage that the Medicare program has established according to the latest published CMS final rule and notice published prior to the start of the state fiscal year, with the exception for hospitals having wage area index less than or equal to 1.00 will have the labor share percentage applied at 62.0%. Medicare published the Medicare impact file for FFY 2026 in August 2025 and it was used for the base prices for SFY 2026-27.

Similarly, final changes to all DRG hospitals wage area, index value, or labor share calculation published for future federal fiscal years will be used for the state fiscal year beginning after the start of each respective federal fiscal year. All wage area index values were set as of July 1, 2026, and are effective for services provided on or after that date. All rates are published and can be viewed on the Medi-Cal DRG Pricing Calculator posted on the DHCS website at https://www.dhcs.ca.gov/provgovpart/pages/DRG.aspx.

b. The wage area adjustor is not applied to the hospital-specific transitional base price (determined in paragraph C.3 above).

c. After the hospital-specific transitional base price years, the CA wage area index values are capped to no more than a reduction of five percent, when compared to the provider's wage area index value assignment for the previous SFY and after application of the CA wage area neutrality adjustment factor.

6. Policy Adjustors
The implementation of APR-DRG Payment includes the functionality of policy adjustors. These adjustors are created to allow the DHCS to address any current, or future, policy goals and to ensure access to care is preserved. Policy adjustors may be used to enhance payment for services where Medi-Cal plays a major role. This functionality of policy adjustors allows DHCS the ability to ensure access to quality care is available for all services. A list of the current policy adjustors is reflected in Appendix 6 of Attachment 4.19-A. These policy adjustors are multipliers used to adjust payment weights for care categories. The projected financial impact of the policy adjustors was considered in developing budget-neutral base prices.

7. Cost Outlier Payments
Outlier payments are determined by calculating the DRG Hospital's estimated cost and comparing it to the APR-DRG Payment to see if there is a loss or gain for the hospital for a discharge claim. The DRG Hospital's estimated cost on a discharge claim is determined by the following: The DRG Hospital's estimated cost may be determined by multiplying the Medi-Cal covered charges by the DRG Hospital's most currently accepted cost-to-charge ratio (CCR) from a hospital's CMS 2552-10 cost report. The CCR is calculated from a hospital's Medicaid costs (reported on worksheet E-3, part VII, line 4) divided by the Medicaid charges (reported on worksheet E-3, part VII, line 12). All hospital CCRs will be updated annually with an effective date of July 1, after the acceptance of the CMS 2552-10 by DHCS.
